

Wall Mount FO 22 - Splice and Termination Box

Description:

The FO 22 is a cost effective wall mount interconnect indoor cabinet designed for splice, storage and protection of 4 to 12 fiber optic connections. These compact, modular units are ideal for use in locations such as building entrance terminals, telecommunications closets and other controlled environments where wall space is at premium. The FO 22 M allows capacity up to 12 fibers.

Features:

- Easy wall mounting
- Craft friendly - protection for facility and user connections
- Modular system
- Easy access to individual connectors
- Durable powder coat finish
- Easy exchangeable panels for most common connector types
- Bushing PG for firm holding of optical cable
